

## She's Everything I Need-

### Verse 1-

Love at first sight they say, cannot really be

But she took the deepest part of me, and now I can't  
break free

Not a waking moment even when I sleep, my heart, is  
full

I think I'm in real deep, this time

I think I'll let her know, defined, she's the one I can't  
let go 'cause

### Hook-

She came along blindsided me, I'm down on my  
knees, in a love emergency

No antidote for what ails me, she is the cure, I've got  
to make her see

She's everything I need

Verse 2-

From the way she talks the smell of her perfume, she's  
so intoxicating and I'm so consumed

If this is what the books say love is all about, she is, the  
one, and there is no doubt

This time, I've got to let her know tonight, I'll risk it all  
and just let go 'cause

Hook-

She came along blindsided me, I'm down on my  
knees, in a love emergency

No antidote for what ails me, she is the cure, I've got  
to make her see

She's everything I need (that's right)
